COLLECTION

600X1200mm

GHR SURFACE

In the heart of earth's raw beauty lies the inspiration behind the RUNA Collection by Designa. Every shade in this series – from the grounding Nero and tranquil Grigio to the warm Silver and timeless Beige – is born from the purest clay pigments, meticulously crafted into architectural surfaces.

These hues aren't just selected – they're extracted from the soil's own expression, shaped by pressure, fire, and patience. The powder heaps seen in the image are not just colors; they are the very origins of the tile, representing the material before it takes form – natural, unfiltered, and elemental.
