# hitha stone

---

A contemporary interpretation  
of an age old marble

Designed for environments where strength and design integrity matter, Hitha Stone combines solid construction with a clean, minimal visual language. The surface expresses purposeful texture and disciplined geometry, making it a powerful choice for contemporary architecture.

crafted in italy

Designed and engineered in Italy, this collection represents the union of heritage and innovation. The surface architecture is shaped by advanced production technique and deep material knowledge, resulting in a tile defined by precision, durability, and minimalist expression. Every piece carries the signature of Italian design—measured, balanced, and inherently timeless.

# Minimal, Murale, Variee, Chips

A modern Shape cid surface designed with precision, offering four distinct variations that meet diverse architectural needs. Minimal and Murale emphasize purity and subtle movement, while Variee and Chips introduce deeper texture and natural particulate expression. Together, they create a cohesive system of surfaces built for timeless interior and exterior applications. A surface engineered for spaces that demand performance, neutrality, and controlled aesthetic strength.
